

FEATURES INDEX

Compiled by Philip Spencer

Read something in a past issue of *Garden Design Journal* but can't remember where? This index (2008-2010) should be able to help

In response to one of the most common reader enquiries to the SGD ('can you tell me in which issue I read the article about...?'), we have compiled an index to all the features that have been printed in the *Journal* in the past couple of years. The index will guide you straight to the correct issue. To order back issues, go to www.gardendesignjournal.com or email info@sgd.org.uk
