## 10. IMPORTANT INFORMATION ON YOUR PRESENTATION

- Do not send your submission at the 11<sup>th</sup> hour. This leaves no time to rectify if there are errors.
- Keep in mind that you are selling your design idea to a panel of expert judges.
- Judges advise you not to enter your garden too early; wait until the planting has matured.
- Adhere to the presentation requirements; submit material accurately; the order is important.
- Remember the judges have limited time so need to understand and get the best possible impression of your project quickly.
- Plans should be populated to help understanding of usage (e.g. house, parking, garage, entrance).
- Provide the best possible photography in the pdf submission for judges' review – the judges only view the .pdf
- Ensure your project shows technical competency and the presentation is as eye catching as possible.
- Keep text to an absolute minimum and ensure all text used can be easily read either at normal viewing or if zoomed in.
- You can include more than one image per page; caption your images with 'before' and 'after' and any other useful information for the judges. Note it is not always obvious if not stated that it is a 'before' or 'after' image.
- All images must be right way up to view.
- All pages must be the same size and landscape before making them into a pdf; e.g. size all to A4 landscape before adding to pdf
- You could use for example either "Microsoft Word" or "Microsoft Publisher" to create your submission before converting it to a .pdf
- The pdf must be a maximum of 12MB.
- Compress individual images before adding to the pdf for your submission.
- If using 'Word' save each page with compressed image as landscape at A4 size before adding any text and then add to your pdf submission.
- Use vectorised text to ensure judges can zoom in to read detail (not available if using 'Word'); examples of software for this are Adobe Illustrator, Adobe In Design, CAD.
- If you need assistance with creating your pdf there are options, just google; one example is <https://smallpdf.com>

## 11. PROJECT PHOTOGRAPHY

- All photographs supplied for publicity should also be included in the pdf submission

## 12. JUDGING

- The judging panel is comprised of experts in the Industry selected by the SGD.
- The Judges' comments for the winning entries may be used at the Awards Ceremony and on the winners' page of the SGD Awards website.
- Should the judging panel consider that none of the projects in a category meets the required standard then an Award will not be made.
- Should the judging panel consider that a project is better suited to a different category they have the right to move the project without reference to the entrant.
